

PLEASE DO NOT ALLOW anyone to weaken the Indiana NO-CALL list. This has stopped unwanted calls in my home and on my three telephone lines that were constantly getting sales calls. If I initiate business with a bank or another organization then it is only for them to return that "one" call to me and not to make other "sale" oriented calls ever to me. Please do not take away the right to quiet and privacy in my home. I found that I lied, as well as hung up on those folks anyway but it is better not to have to be frustrated and receive those calls in the first place and bother my family.
